In response to the office communication dated October 30, 2002, please amend the above-identified application as follows:

Substitute Paragraphs and Claims

Please add the following paragraph before line 1 on page 1 of the application, as follows:

Related Applications

B¹

This application is a divisional application of copending, commonly assigned U.S. patent application Serial No. 09/393,405, Attorney Docket No. C0011/7002, filed September 10, 1999, by Howard et al., and entitled "LIMITED-USE BROWSER AND SECURITY SYSTEM".

Please substitute the following claims for pending claims with the same numbers.

B²

20. A method of receiving compensation for a security system for protecting content distributed on a network comprising:

selling a server security program to a content provider; and
selling a plurality of copies of a limited-use client program to content provider for
licensing to users wishing to access the content.

21. The method of claim 20, wherein the compensation is received at least from one
of (a) when the server security program is executed by the content provider and (b)
when the content provider licenses one of the plurality of copies.

*Cont
B2* 22. The method of claim 20, wherein the server security program distributes the
content to a client system if the client system has a limited-use client program and
wherein the limited-use client program limits reproduction of the content in at least one
way.

23. The method of claim 20, wherein the compensation is based on advertising
revenue obtained by the content provider based on advertising in connection with a user
accessing content protected by the security system.

Please add the following claims.

*Page
126
B3* ~~24.~~ ⁸⁴ A method of receiving compensation for distributing protected content over a
network comprising:

- (A) providing network accessible protected content from a source;
- (B) authorizing downloading of protected content from a source to a client
system; and
- (C) preventing non-ephemeral reproduction of the downloaded content by the
client system until compensation is received.

⁸⁵
~~25.~~ In a computer program product for use with a computer system operatively
connectable to a network and capable of distributing protected content over a network,
the computer program product comprising a computer useable medium having
embodied therein program code comprising:

cont
B3 (A) program code for providing network accessible protected content from a source;

(B) program code for authorizing downloading of protected content from a source to a client system; and

(C) program code for preventing non-ephemeral reproduction of the downloaded content by the client system until compensation is received.
